---

Hi Cari-Michel and Gary,

The Texas Guard is here (8 folks) who actually do hands-on engineering (from what I have been told), so if any water systems need that kind of support (someone like a Beaumont), we can send a team out along with one of ours (e.g., José Rodriguez) to affect repairs. Right now, they are doing assessments which is what they were doing in Corpus region.

Just something to keep up your sleeve.
